To Whom It May Concern:

I am writing a letter of recommendation on behalf of Erica Johnson for her capstone project. I've had the pleasure of knowing Erica for many years. Until recently I worked as the Director of Franciscan St. Francis Health Education Department.

Erica has acted as a substitute trainer for Franciscan St. Francis Health for the past 5 years. Erica has helped with CPR classes for 5 years and with Super Sitter classes for the past 2 years. Erica relates well to the students in the classroom. She is able to quickly assess any given situation and address any questions or concerns in order to maintain a positive learning environment. Erica will be a positive asset in a classroom or training setting. She is always positive, upbeat and portrays an approachable style with the students which encourage questions and interactions.

Thank you for your consideration. If you should require additional information please feel free to contact me directly at 317-888-7449.

Sincerely;

A handwritten signature in black ink that reads "Kathy C. Fox". The signature is written in a cursive style.

To Whom It May Concern:

It is with great pleasure that I recommend Erica Johnson. I have known her for approximately 12 years. As a young child, she possessed a warm and engaging personality; she truly did not know a stranger. She is a valued employee at Franciscan St. Francis Health Centers. Her position in Community Relations has allowed her to expound upon her "people" skills and develop her exceptional ability to effectively communicate and collaborate for the needs of our patients and their families.

Erica is eager to be challenged and portrays a high level of motivation. She always displays a high degree of integrity, responsibility, and ambition. She is definitely a leader rather than a follower. In addition to her scholastic accomplishments, she has proven her leadership ability by supporting and encouraging fellow classmates, coworkers, and family.

She is also a most dependable and engaged team player. Her good judgment and mature outlook ensure a logical and practical approach to her endeavors. Her future as an educator would most definitely benefit the profession of teaching.

Erica would be an asset to any organization, and I am happy to give her my wholehearted endorsement.

Sincerely,

Maria Smith RN, BSN, CCRN
